About Lionheart (Template)

Lionheart

Personality

Lionheart usually grows from a fairly silly, lighthearted - and often sadistic - child into someone determined to do right by her world and to make sure no one suffers what she did. She's still friendly and easy going, often joking around and falling in love easily. She's usually shyer with crushes than most examples of her template group. She comprehends violence and cruelty - but finds it extremely hard to connect with other Decima sub-templates (except for Rubies).

Origin

Lionheart's first instance was Bellona Elric, a circumstance alt of Alphonse Elric from Fullmetal Alchemist. The template name is taken from Bellona's screenname (lionheart), which is a reference to the Of Monsters and Men song "King and Lionheart."

Name Attractors

The template has no real name attractors, except for a general tendency to take mythology-related names.

Attractors

- Pro-social and good-aligned
- Usually have a happy early childhood, with significant rough patches in late childhood
- Female
- Pansexual
- Less inclined to be submissive than other members of her template group
- Opposes her (usually lawful evil) culture
