The Nirmathas Border

The Molthune/Nirmathas border is both hotly disputed and in flux, with Molthune generally exercising power along the riverbanks and coast even well into what's labelled 'Nirmathas' and Nirmathas mostly having control over the interior even in what's labelled Molthune; this is more a civil war than a two-states war, though some people have proposed a partition somewhat like the one on the maps in the hopes of ending it.
