Aldaras is the Adarin from the Treasury universe.

History

Background

Aldaras and his twin sister Zevaia are bastards with no knowledge of their birth father.[1] Their mother is in an asylum, and they were raised by their adopted father Vernus. They were born in the village of Ng Yen in Chung-Koet, but moved to Noregr with their father when they were eleven.[2] He joined the University of Drofnfjord as a tracker, and his adopted father then became his keeper.[3]

Finding the Knife

Aldaras goes on a trip in search of new artifacts, accompanied by Zevaia. They are in the woods hunting when, feeling uneasy, Zevaia goes ahead to scout. Aldaras locates the necklace and goes to find her, but is caught by the knife. He saves himself by touching the necklace, which frees him from the knife's control, but Zevaia is surrounded by other cut and Aldaras is unable to get to her. He leaves with the necklace, promising to return and save her.[4]

Meeting Annie

Aldaras takes the necklace back to the University of Drofnfjord for analysis by the Dean of Analysis. As he is leaving, he sees Annabelline Swan sitting on a nearby wall and falls instantly in love with her, thereby discovering side effect of the necklace.[5] As this promotes her to his keeper, he immediately tells her all of his secrets.[6] He explains what has happened to Annie, and she agrees to make herself available if he learns more secrets in the future.[7] While he waits for volunteers to help him rescue the cut, he finds out that the necklace bases its True Love effect in compatibility and will be reciprocal if Annie touches it, and that he is immune to both the thimble and the rocking chair.[8][9][10][11]

The Rescue

Finally, the Dean tells Aldaras that the necklace can save the cut from the knife.[12] Aldaras convinces a man named Sintre to join him, in exchange for half the reward money.[13] They locate the cut and free them, Zevaia included.[14][15] Aldaras calls and lets Annie know about his success, then they all return to Drofnfjord, leaving the knife behind them deep in the ocean in a block of cement.[16][17]

The Theft

After his mission, Aldaras instantly becomes a rich celebrity.[18] He begins a tentative relationship with Annie after he takes her to a fancy party.[19] Just after this, the necklace and the thimble are reported stolen, though the necklace is found soon after hidden in a vase.[20][21] Aldaras retrieves the necklace once it is unglued from the vase, as he no longer trusts the University with it.[22] After a bank robbery creates panic, he and Annie interview people to be allowed to touch the necklace, until a second robbery steals the tapestry and Annie panics.[23] Terrified of having her mind read, Annie gets Aldaras to let her touch the necklace, and they begin a relationship.[24] The next day, at Annie's suggestion, they set a trap for the thief using the chalice as bait and successfully retrieve the stolen artifacts.[25][26]

Magic

As one of the touched, Aldaras is:

- Protected from mental magic, granted by the necklace
  - Permanently, magically in love with Annie as a side effect
- Able to 'hear' nearby artifacts, granted by the horn.[4]
  - Obliged to tell first his father, and later Annie, anything he considers relevant as a side effect.[4]
