"She's not reckless or helpless. She keeps Jacob with her, she can incapacitate or obliterate anyone outside of a couple dozen inoculated people by thinking about it, I believe she's safe at home and when she's in Milliways she doesn't walk through the door with anyone who she can't sincerely tell Jacob they're harmless. But she's been through more than she should've been, and she grew up so terribly fast, and I love the person that she is but she's not who I would've designed if that were how children worked. I'd never have wanted my baby to go on to casually discuss murder and mental rearrangement and torture as things that she's seen and experienced and gotten accustomed to thinking about." **Golden on Elspeth**.

Background

Elspeth is the daughter of Isabella and Edward Cullen. She was born from a fertilized egg and implanted in Gianna Trafeli.

Powers and Abilities

*"You are definitely the opposite of secretive," **Libby agrees**. "It's endearing."*

Elspeth was born with a witchcraft that allows her to share her thoughts and be honestly understood. Her power prevents her from using itself for lying and tries it's best to share information in a understable manner for the recipient parts.
