Once at Yale for nursing school, she met [Phil Anderson](#), whom she eventually married. After the wedding, Emma decided to focus solely on nursing and give up Watching, and she and Phil moved to [Sunnydale](#).

Sunnydale

While working in the Sunnydale emergency room Emma meets [Bella Swan](#), and realizes that Bella is the missing [Slayer](#). She gives Bella her contact information in case of emergencies and puts her in touch with the Watcher's council. She has assisted Bella only a couple of times, most notably providing the recipe for an antidote to [Soph Swan](#) and [Alli Kowalski](#) when Bella was poisoned.

Abilities

Emma is a licensed RN working in the Sunnydale emergency room. In addition, as someone trained to be a Watcher, Emma is familiar with a great deal of supernatural lore. She is fluent in Latin and knows several demon languages, and has a modest collection of demonology books of her own.
