Jenny is the Jenny from the Myth universe.

History

Jenny is the oldest of five children born to John and Teresa Marino. She was born and raised in the Little Italy neighborhood of Toronto, Canada. She and everyone in her family are pegasi, and all of them have medallions except Patrick, the youngest. While on a school trip to France, Alli Lyon recognizes her as a fellow critter and recruits her to help introduce Mabel Swan, a new critter, to the supernatural world.

Abilities

As a pegasus with a medallion, Jenny can change between her pegasus form and human form at will. She also has the ability to selectively combine the two forms, a state called being in "midform". When in pegasus form, she is able to fly.
