This article is about the Savannah Sanders native to [Gemini](#). For characters with similar names, see [Savannah](#) or [Savannah Sanders](#).

Savannah is the [Zevi](#) from the [Gemini](#) universe.

History

Background

Savannah and her twin sister [Adana](#) moved to Phoenix, Arizona their sophomore year of high school and begin attending the Gemini school Apollo High, where they befriend the Swan twins [Bella](#) and [Alli](#). Her first day there Savannah asks Bella to be her homecoming date, and Bella agrees; though they have fun at homecoming, they decide not to continue to date.^{[1][2]} When the Swans get their bonuses, Adana and Savannah help them experiment with their new powers.^[3]

Volcano

When it's revealed that the Yellowstone supervolcano is about to go off, Savannah's family and the Swan family evacuates to Charlie Swan's house in Forks, Washington.^[4] As part of the Junebug evacuation effort, Bella teleports Adana and Savannah to the cities they are fetching refugees from and to, where they make portals.^[5] When the cities are full Adana does person-by-person evacuation until the area becomes too dangerous, and Savannah finally forces her to stop.^[6]

Aftermath

After everything is over, Savannah and Adana are awarded medals for their contribution.^[7] After seeing Adana's interview, Bella asks Adana out; finding her sister upset at the idea of 'stealing' someone from her, Savannah reassures Adana she's no longer interested in Bella, and the two being dating.^{[8][9]}

Twin Bonus

As [twins](#) from [Gemini](#), Savannah and Adana got their powers (or "bonus") as soon as they turn sixteen. Savannah has the bonus of super speed. She can also provide Adana with location information for portal placements. Her speed, while exceptional, does not permit her to break the sound barrier.^[10] She does not get tired easily, and she burns a lot of calories.^[11] She does need to gather speed, so in small spaces she has to run in circles until she is fast enough.^[12]
