Rahi is the Sherlock from the Circle universe. She was originally named Sherlock before Alicorn and Kappa did a character rearrangement.[1]

Background

Rahi lives in Discipline with her twin sister Niva, Stormy, Rook, Sedge, Mercy, and Elyth because she is unable to sleep in dormitories and requires an empty room.[2] She can often be found reading, as she finds books restful.[3]

Magic

Rahi is presumed to be an ambient mage because her twin sister is one, but has yet to display any magic of her own.[4] She has displayed an uncanny ability to pay attention to things around her, but is uncertain if it counts as magic.[5]
