Author Opt Ins

This is a list of authors who've opted in to having their content included on the wiki, who have declined to have their content included, or who have more complicated preferences than a flat "opt in / opt out". Each author's own words are in the last column and are what count; the other columns summarise them, and say *unconfirmed* until the author has checked them. When you edit a page about an author's characters or threads, the editor shows their preferences here as a reminder.

To add yourself or change your entry, edit this page (see Template:Author opt-in for the fields).
