Edie Magda Lehnsherr (I-am-being)

Instance of Edie from the setting *Thing*. Edie is infected with Thing cells but successfully manages to win control of her body and identity from the alien, then deliberately infects her sister on the grounds that *she* would never try to overwrite Emily's identity in something of an inoculation.

Appearances:
Forsaken Expanse - Eldritch Yvette lands on not entirely un-eldritch Edie and Emily while the latter are still in Antarctica recovering from their change of species and the deaths of the rest of the human population of the base.

Ada be Korel de Arek

 image-1611548182288.png

Amentan instance of the Edie template.

Ada is a Voan green who follows in her mother's footsteps by studying genetics.

Appearances:

never saw you coming - Odette and Illia land on Amenta and are very surprised to discover local alts.

Odette Zavier (powerispain)

(related or characteristic quote)

Odette Zavier is a member of the Edie template written by MaggieoftheOwls. (Brief introduction. Suggested to include whether circumstance alt or original, plus appearance if notably different from icons)

(Character personality description)

There are two main factors that set Odette apart from other Edies. One is the fact that all the mind-altering magic she practices had some imprint on her personality; in Odette, the effects of Sympathy have thus far manifested mostly in an inclination to steelman and give people the benefit of the doubt in comparison to a baseline Edie.
