Account for canon-derived instances of Maggie's take on Lan Wangji from mdzs/The Untamed

Relationships:

- Wei Wuxian (Soulmate/Husband/Remarkably oblivious love interest)
- Lan Xichen (Brother)
- Jiang Wanyin (enemy)

Trivia:

While most cases of "Lan Wangi" in glowfic overall have belonged to argona, whose version is a switch, this instance is based more strongly on book characterization in comparison with argona's heavily Untamed-influenced version and is consequently an exclusive dom.
